

## Vocabulary Review Worksheet: Biological Levels of Organization

1. Match the term with the correct description. Write the letter of your choice in the blank to the left of the term.

	atom	<b>A</b>	Atoms that are chemically bonded together
	cell	<b>B</b>	A body part made of tissues that together perform a similar function
	organ	<b>C</b>	All of the populations of living things in an area
	population	<b>D</b>	The smallest unit of an element; made of protons, neutrons and electrons
	Organ system	<b>E</b>	The basic organizational unit of all living things
	biome	<b>F</b>	Organs that work together for a common purpose
	molecule	<b>G</b>	A well defined structure within a cell that performs a specific function
	tissue	<b>H</b>	A group of interbreeding organisms living in the same area
	Organism	<b>I</b>	An individual living thing capable of reproduction
	Cellular organelle	<b>J</b>	A grouping of similar cells with a specific function
	biosphere	<b>K</b>	A community and all of the physical characteristics of its environment; all of the living and nonliving things in an area
	community	<b>L</b>	All of the ecosystems with similar climates
	ecosystem	<b>M</b>	All of the living things present on, above or in the earth

2. Complete the puzzle on the back of this sheet using the terms you studied about biological levels of organization.

# Levels of Organization
